

# E-Waste

# March Music Video

## Change Challenge

The Change Challenge we propose to you this month is to create a music video about the problems and potential solutions to electronic and electric waste!

1. Your song must be original content
2. Your song must include lyrics about the problems and potential solutions of electronic waste
3. You may enter individually or as a group of 2-5 people
4. You must share your video with us, Living Green Barrie, to be qualified (send to [sarah@livinggreen.info](mailto:sarah@livinggreen.info))
5. Imaginary bonus points if you or your group include actual e-waste as musical instruments
6. Your song must be between 1-3 minutes in length
7. All entries must be submitted by Tuesday, March 26th, 2019 by 10:00am

Enter for your chance to be featured on Living Green Barrie's social media pages, the chance to win some Telus Swag, and to have your music video featured at our March GreenScreen!
